

## PROFESSIONAL SUMMARY

As a recent graduate with a Bachelor's degree in Computer Science, I bring a strong foundation in software development principles and proficiency in programming languages such as Java and Python. Eager to apply my academic knowledge and practical experience, I aim to contribute effectively as a software developer in a prominent high-tech corporate environment. With excellent communication and teamwork skills, coupled with a passion for continuous learning, I am ready to embark on a challenging and rewarding career journey, where I can discover my full potential and achieve personal growth.

## EDUCATION

### Shri Venkateswara University

- Bachelor's Degree in Computer Science
- 2021 – 2024

### Masterminds Junior College

- Intermediate MEC
- 2019 – 2021

### ArogyaMatha School

- SSC AP
- 2009-2019

## TECHNICAL SKILLS

- Core Java
- JEE
- JDBC
- Hibernate
- SQL
- Logic Building

## SOFT SKILLS

- Communication Skills
- Leadership
- Team Work
- Adaptability
- Creativity
- Analytical Thinking

## EXPERIENCE AND PROJECTS

### Tic-Tac-Toe Project

#### Java Mini Project |2024

I've developed a Tic-Tac-Toe game from scratch using Java! This Project allowed me to sharpen my programming skills, particularly in logic building, and work with AI in a simple yet effective way.

#### Description:

The Tic-Tac-Toe project in Java is a basic implementation of the classic two-player game where players alternate turns to place their mark (either 'X' or 'O') on a 3x3 grid. The primary objective of the game is to align three of the same marks either horizontally, vertically, or diagonally to win. This project is designed to demonstrate fundamental Java programming concepts, including loops, conditionals, arrays, and object-oriented principles like encapsulation and method abstraction.

The project includes features such as:

1. Game Initialization
2. Game Loop
3. Win and Draw Detection:
4. User Interaction
5. Game Restart

## CERTIFICATIONS

- Certification in Wipro TalentNext Program
- Certificate of completion of Core Java Course
- Certification in SQL
